

Pack 337 Web Services - MODIFYING A DEN PAGE

OPENING THE SITE

1. Use Internet Explorer for your browser. You can try other browsers, but may have issues with everything showing.
2. Go to www.pack337.com/cpanel
3. Username: packcom Password: (the usual Pack Password)
4. Find the "Software" section, and click on the RVSiteBuilder Icon.
5. Click on "Edit" next to "Edit existing Site"

EDITING A PAGE

6. Click on "Step 5" - Site Content
7. Under the "Dens" pages List, click on the "WYSIWYG" Icon for your Den. FYI, WYSIWYG stands for "What you See is What you Get".
8. This will bring up a new window showing your Den page. Don't delete the original page, you'll need it.
9. Make Edits to this page by clicking in the center window, like you would any other editor. You'll have to play around, but you can add tables, backgrounds, images, etc.
10. IMPORTANT - When you're done with your changes, or any time along the way, hit the "Save" icon which is the disc.

PUBLISHING YOUR PAGE - Now that you've modified and saved your page, you'll need to publish it to the web.

11. Back in the original window you used to open the site, click on "Step 7" - publish
12. Click on "Publish" (this could take a while)
13. Click "Next" when you need to.
14. Once the publishing is done, a window will pop up with the published website.
